CAREER OBJECTIVE

Aspiring web developer with a solid foundation in HTML, CSS, JavaScript and MERN stack, eager to launch a career in web development. Passionate about creating dynamic and user-friendly websites, I am seeking an opportunity to apply my technical skills and learn from experienced professionals in a collaborative environment. Committed to staying updated with the latest technologies and best practices to deliver innovative solutions that meet client needs.

FRONTEND WEB DEVELOPMENT COURSE

From Relevel by Unacademy : (June 2022 – may 2023)

gained hands-on experience in building interactive and visually appealing web applications. Throughout the course, I mastered essential technologies including HTML, CSS, JavaScript and React.js honing my skills in creating responsive layouts, designing engaging user interfaces, and implementing dynamic functionality.

MERN stack ecommerce – (Udemy online course) : (Jan 2024)

WORK EXPERIENCE

Dragon Age Realtors Pvt Ltd

Civil Site Engineer (January 2020 – March 2024).

IDC – Intirious Design & Collection

Full-stack Web Developer (April 2024 – current)

- Worked as a full-stack web developer at **Intirious Design & Collection**, created a full stack ecommerce platform that sells Home Décor Items and also offers interior design services.
- Undertook complete ownership of the frontend as well as the backend for this project.
- Currently working on a few more full stack projects .

PROJECTS

1. **intirious.com**: Created this Full-stack ecommerce app using MERN stack, used RTK Query for state management, data fetching and to handle caching.

Github link:- <https://github.com/zamanabdi/final-intirious-ecomm.git>

2. **Movix App**: A Fully responsive Movie Review app using React.js18 :- <https://github.com/zamanabdi/Movie-app.git>
3. **Real Estate Website**:- A fully responsive property selling app using React.js 18 , firebase as backend and tailwind css for styling. <https://github.com/zamanabdi/propertywale.git>
4. **Crypto App**: <https://github.com/zamanabdi/crypto-app.git>
